

## Where Should I Start

### GroupMe

Many clubs and organizations will reach out through direct message on GroupMe. Look out for them and don't hesitate to DM a group yourself! GroupMe group chats, such as class group chats, are also a great way to hear about clubs.

### Enormous Activities Fair

During Week 0 of fall quarter, look out for EAF. It is a huge fair where hundreds of clubs and organizations market in front of Royce.

### Google

Google is a great place to look for service organizations. You'll often be able to find their websites with even more information.

### Social Media

Most clubs and organizations have Facebook groups and Instagram pages. This is a great way to learn about a club's recent activities and see who else in the club. Social media is also a way to get in contact with an organization that interests you.
